

Calm Waters AI

BOOSTS REVENUE, ELIMINATES STRESS, AND SAVES YOU TIME

THE BENEFITS OF CALM WATERS AI

- Capture \$17.14* more per encounter for the services you provide.
- Increase E/M coding accuracy to 97%** vs. an average of 65%.***
- Accelerate your revenue cycle with faster billing.
- Save up to 1 hour per day, per physician.
- Reduce the risk of audits and denials and automatically generate a defensible audit trail and real-time CDI documents.
- Stay up-to-date on constantly changing regulatory requirements.

*Average revenue increase across various-sized organizations and specialties we have audited. Actual results will vary depending on practice and specialty.

**Accuracy assessed by Mazars USA LLP, an audit, tax and advisory firm. [mazars](https://www.mazars.com)

***Based on internal audits of Calm Waters AI clients.

HOW CALM WATERS AI REVOLUTIONIZES YOUR CODING PROCESS

- Automates, documents, interprets and summarizes all ambulatory encounters.
- Incorporates internal compliance guidelines and regional MAC requirements.
- Automatically generates and stores a defensible audit trail.

Eliminate E/M coding stress with AI that actually works.

"We believe that Calm Waters AI will deliver a significant return on our investment by enabling us to receive reimbursement for more of the time our physicians spend caring for patients and by improving the accuracy of our E/M coding."

- Bruce Cohen, M.D., CEO, OrthoCarolina
