

The complete patient financial platform

Cedar empowers patients to pay bills, navigate insurance and gain coverage with one simple platform that connects to your EHR.

Healing shouldn't hurt financially, but it often does. As the ratio of uninsured and underinsured patients grows, one-size-fits-all approaches no longer serve patients or providers.

Cedar transforms financial engagement through personalized pathways that work for each patient's unique circumstances. By connecting providers, payers and funding sources into one unified platform, we match each patient with the right financial solution for them. The result is a bill that patients understand and trust — and are more likely to pay.

Cedar can help you:

Collect more

Connect patients to EOB insights, HSA funds and tailored payment options, so they can pay bills with clarity and confidence.

Maximize reimbursement

Help patients navigate affordability by unlocking coverage — like Medicaid, ACA plans and medication aid.

Improve efficiency

Streamline contact center operations through AI-driven automation, user-friendly self-service, and empathetic support.

50M

lifetime patients served¹

\$10B+

What sets Cedar apart

Optimized engagement

Cedar's team of data scientists, engineers and designers continually build and ship new features to improve your results.

Breakthrough AI

Cedar AI transforms patient support, combining intelligent automation with human expertise to deliver exceptional service at scale.

Connected experiences

Cedar unifies billing, EOBs, HSA management and Medicaid enrollment into one integrated platform.

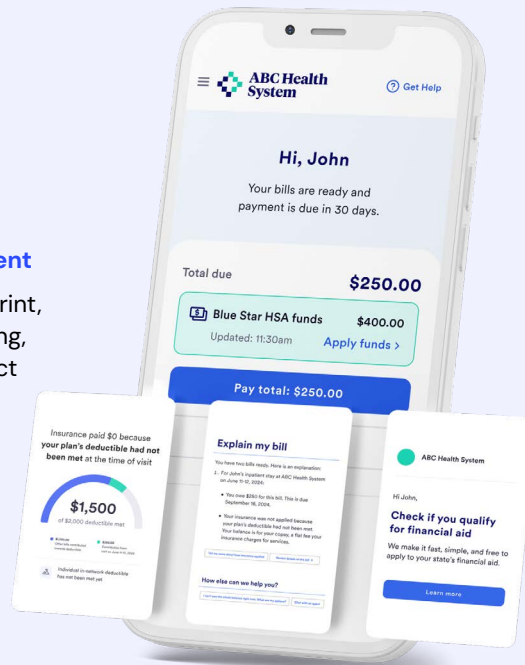

Streamlined vendor management

Cedar reduces your vendor footprint, with built-in payment processing, patient statements, IVR, contact center services and more.

Accountable partner

Partnership means winning together, so Cedar uses an aligned incentives model. Unlike EHRs, we're accountable for delivering real business impact.

The results have exceeded our expectations. Cedar is a true partner with a very involved leadership that has been responsive since the very beginning of our relationship.

MELISSA MASTERTON

Vice President of Revenue Cycle, Novant Health

Top providers rely on Cedar to deliver the best patient financial experiences

 **Cedar's mission is to empower us all to easily and affordably pursue the care we need.**
