

4 REASONS

Why you should have aiH.Automate™
on your 2024 roadmap

MEDICAL CODER SHORTAGES

Fight the nationwide shortage of certified medical coders by automating repetitive coding tasks, reducing manual intervention, and allowing coders to focus on complex cases.

GROWTH IN THE MEDICAL CODING MARKET

The U.S. medical coding market is expected to reach 32.6 billion USD by 2030, a projected annual growth rate (CAGR) of 8.0% from 2022 to 2030.

95% AUTONOMOUS CODING RATE

aiH.Automate™ codes charts within seconds, reducing coding backlogs and increasing turn-around-times by days, and accelerating cash flow.
