aiHealth

The Three Steps to aiH.Automate™

Your new autonomous coding partner.

→

# Integration of Data Sources

AI-ML extracts metadata from complex structured and unstructured clinical notes.

HL7/API, PDF, EMR/PM

aiH.Automate™

Automated Coding Workflow

Successfully coded notes are routed to billing workflows, and exceptions are sent to human coders.

50684

aiH.Automate™

$

Billing

Analytics and Full Audit Trailing

A customizable analytics dashboard offers full audit trailing, providing detailed insights.
