

Channels

by  Calvient

The single platform for building
your **digital front door**.

Here's the problem...

- ◆ There aren't 30 hours in the day.
Mundane front-office tasks take time you don't have.
- ◆ You can't fix what you can't see.
You need to see real data in real time.
- ◆ Patients are expecting more.
Patients are expecting a digital front door.

80% of patients reported that they'd switch providers for "convenience factors" alone.

NRC Health

...and here is how we help.

Integrate with your EHR.

No manual data entry, no daily uploads.

Inform best practices.

Constantly optimize for better outcomes.

Automate workflows.

Set it, forget it, and focus on what matters.

- e-Check In
- Telehealth
- Chart Integration
- Bill Pay

After the Visit

- Surveys
- Broadcasting
- Messenger
- Waitlist Automation

Our Philosophy for Building Next Generation Software

All built with infinite scalability in the cloud.

How We Get Started

Alignment

We'll discuss your goals, identify your needs, and talk budget, timeline, and your vision.

Agreement

If we're a fit, let's formalize our agreement and go back to work.

Adoption

Calvient performs the implementation, integrates with your EHR, builds out your system, and trains your users.

All at no additional cost.
