Integrates with Most EMRs
Automate Data Exchange and Improve Accuracy

Compliance
HIPAA Compliance
Eliminate Exposure of PHI

ROI fulfillment in healthcare is a highly manual, time consuming, risk-laden process.

Providerflow reduces manual ROI fulfillment by 95%.

One missed step or typo could expose PHI, label your practice non-compliant, and subject you to heavy fines. This exposes your practice to unnecessary risk with every ROI you fulfill.

Providerflow software fulfills more than 1.2 million compliant ROI requests each year. Our HIPAA-compliant cloud-based software is suitable for any size practice seeking to alleviate the burden of ROI requests.

In a healthcare practice of any size, time is revenue. Providerflow uses the power of computer automation to improve practice workflows, saving clients time and labor costs.

We process millions of images each day for over **45,000 providers nationwide** and offer a **100% satisfaction guarantee**.
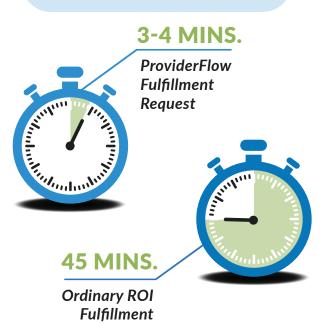

PROVIDERFLOW
Simple. Efficient. Compliant.

Are you certain every ROI request is completed with zero compliance issues?

You should be.

Providerflow automates ROI fulfillment, providing your practice with standardization, policy enforcement, easy tracking, and faster turnaround.

Immediate Financial & Operational Benefits

3-4 MINS.
ProviderFlow Fulfillment Request

45 MINS.
Ordinary ROI Fulfillment Request

With Providerflow, you can:

✔ Log, track, and verify ROI requests at all stages
✔ Provide real-time visibility into ROI fulfillment
✔ Ensure the medical records are complete
✔ Release only patient authorized data
✔ Fully sync with your EHR
✔ Provide an audit trail
✔ Search features by patient or requestor
✔ Offer multiple methods of records delivery
✔ Automatically create fulfillment letters and invoices

From one smart dashboard, you can view analytics reporting on the efficiency of your employees and provide oversight and quality assurance.

A single ROI fulfillment request can take a **minimum of 45-minutes.** With **Providerflow** the same request takes **3 to 4 minutes**, saving you time and eliminating labor costs.
