Why iScribeAI?

The next generation of Ambient AI

With iScribe, our Ambient AI solution captures your entire provider-patient visit and generates a detailed, accurate, and billable medical encounter.

Two week free trial

Try it free for two weeks and discover how iScribe can enhance your practice with no commitment!

Integrated with your Veradigm EHR

No copying and pasting data. We will put everything where you want it, the way you want it. We fully integrate with your Veradigm schedule, templates, and any formatting preferences.

Increase Efficiency

Experience a turnaround time of < 30 seconds per note. With less time spent dictating, providers easily see 2+ more patients per clinic day.

Your patients need YOU.
Your documentation needs
iScribe AI!

iScribe uses a combination of generative AI and speech-to-text to complete documentation on the provider's behalf, so they can put their time and energy back towards their patients.

The result? Reduced burnout, increased productivity, and better outcomes for patients, providers, and administrators alike.
