TrueFlow ^{n d d} makes the difference

The original ultrasonic flow measurement is highly accurate in all flow ranges, independent of gas composition, pressure, temperature and humidity.

NDD TrueFlow is a hygienic and resistance-free solution that does not require calibration during its lifetime.

EasyOne Connect

EasyOne Connect software offers one database and one platform for all EasyOne point-of-care-solutions. Data management has never been easier.

TrueCheck ^{n d d}

TrueCheck takes care of the essential quality control for gas analysis testing. EasyOne Pro® is the only device proven to be accurate for a lifetime for DLCO measurements.
